

Impact the leaders of tomorrow

The Judge Experience

Now you can make a difference for the next generation with only a few hours. At Washington Business Week, high school students learn crucial life skills as they role play as industry professionals, launch a company, and solve real-world challenges. Who will be the winning team? You be the judge!

At our end-of-week competition, the fresh faces and questions of the Judges are what make our events both challenging and unforgettable. You'll return to work on Monday refreshed and inspired by the innovation and teamwork of the next generation.

Trade Show

At the Trade Show, role play as an investor while student teams pitch their imaginative new product and use their newly learned powers of persuasion to garner your investor "bucks." It's fast-paced, high-energy, and rewarding to see the creativity of the next generation.

Stockholders Presentation

At the Stockholders Presentations, evaluate student performance in our college-level simulation, BizSim, and provide feedback on the quality of their presentation and teamwork. Questions are provided in advance.

WBW has impacted over 60,000 students and 6,000 professionals since 1976. This is the place for the upcoming leaders of today to impact the leaders of the future. Each summer, we host employees from over 50 local and national companies, including:

The Boeing Company
BECU Credit Union
Delta Dental
First Choice Health
Kadlec Regional Medical Center

PEMCO Insurance
Premera Blue Cross
Salal Credit Union
Starbucks
Umpqua Bank
